

LumenData Services for the Public Sector

Public Sector Capability Statement **2024**

Agencies across Federal, state, and local governments are under pressure to modernize, leverage information to streamline operations, make data-driven decisions, and ease interactions with all stakeholders.

But that is increasingly difficult as data volumes continue to explode and many agencies are tethered to old, inflexible, disparate legacy data management infrastructures.

With our laser focus on data, LumenData provides expert data management, cloud modernization, and advanced analytics guidance to Public Sector entities and agencies at all levels.

Our services help our clients better manage the data they have, more easily use that data to benefit their stakeholders, and quickly comply with emerging mission demands, such as new laws and regulations. We assist in successful modernization and digital transformation efforts and help bridge the gap between legacy systems and new tools/technology.

LumenData at a Glance

LumenData, a minority-owned small business, is a leading **data management**, **cloud modernization**, and **advanced analytics consulting** firm. We have offices in the Washington DC metro area, Santa Clara, Australia, and Bangalore, and employees across the U.S. Our deep-rooted product knowledge comes from decades of experience in leading mission critical enterprise data initiatives for our clients. Our methodologies are designed to identify key value drivers and deliver the most impactful business results while **minimizing risk**.

Through a combination of highly trained consultants, **strong partnerships**, a relentless focus on quality, and active executive oversight, LumenData has successfully delivered planning, implementation, integration, maintenance, and training services to hundreds of customers across **Public Sector**, **Healthcare and Life Sciences**, **Financial Services** (Commercial, Insurance, Wealth Management), **Manufacturing**, **Higher Education**, **Retail**, **Telecom**, and other industries.

Our staff **average 15+ years of business/technology experience** with skills in numerous data domains, including cloud solutions, big data, security/compliance, data warehouses, visualization/dashboards, enterprise data strategy, data governance, BI, and reporting.

"LumenData has been a trusted partner for several years, providing MDM expertise and enterprise data strategy thought leadership."

LumenData Delivers Value throughout the Data Management Lifecycle

Key Facts about LumenData

We are not generalists, but instead we are a pure play service provider throughout the full data lifecycle, delivering capabilities such as **Master Data Management, Data Quality, Data Governance, Data Lakes, Analytics, and Cloud Modernization**. We have delivered hundreds of data solutions and continue to rapidly grow in clients, technology partners, and capabilities.

We maintain strong relationships with experts in the open source community as well as with emerging and industry leading tool vendors such as **DataBricks, Snowflake, Informatica, Amazon Web Services (AWS), Fivetran, and Neo4J**; we have found that successful innovation requires an understanding of multiple components in the enterprise landscape and creating a strategy to bring them together into a cohesive approach.

As an example of our partnerships, we have been **Informatica Platinum Partners** for over eight years, have the largest number of live implementations of MDM SaaS, and were **Global Delivery Channel Partner of the Year for 2023**. Our customers value the best practices and innovations that we bring to resolve complex their most challenging data problems.
